		40mm

Shredded

Diced

ADP sources Mild and Tasty Cheddar from a range of Australian and New Zealand suppliers to produce its range of Alessandro Gold Creek Cheddar. ADP also supplies a large range of tasty and mild cheddars for its manufacturing customers to in house and customer specifications.

Individual cheeses are sourced and blended to produce a consistent Mild Cheddar product or Tasty Cheddar blends. The aim is to produce a consistent and reliable product in terms of taste, performance and flavour. Shred lengths and thickness can be varied to requirements.

Vintage Cheddar can be shredded and used when that full flavoured Cheddar Cheese flavour is required.

Shredded Cheddar is ideal for a number of applications including pasta, ready to eat meals, baked products, salad toppings and melted into sauces. The Cheddar range can also be supplied as a diced product if required.
